

Advanced Courses

27th March - 9th April

Molecular Nutrition

Organizers: Cristina Pereira

15th - 26th May

Cancer therapeutics: from basic research to clinic

Organizers: Ana Preto

15th - 26th May

Advances in Invasion Ecology

Organizers: Ronaldo Sousa

5th - 16th Jun

Plants in a changing environment: a molecular approach

Organizers: Hernâni Gerós

5th - 16th Jun

Host-fungus interactions and virulence

Organizers: Célia Pais and Paula Sampaio

19th - 30th Jun

Mammalian and yeast cells as complementary models to understand programmed cell death and autophagy

Organizers: Manuela Côrte-Real and Maria João Sousa

19th - 30th Jun

Oxidative Stress and Antioxidants

Organizers: Alberto Dias

3rd - 14th Jul

Genomics, metagenomics and bioinformatics

Organizers: Pedro Santos, Bjorn Johansson and Filipe Costa

10th - 21st Jul

River restoration and Ecosystem Services

Organizers: Fernanda Cássio and Cláudia Pascoal
